Comp 4 - Street Photography

Although this competition isn't until March, a few people have asked me what is meant by street photography. It is a type of candid photography done in a public space.

If you google "street photography techniques" you will find hundreds of examples and tips to help you. For some good examples have a look at Dave Mason's website. David will be visiting TCC later next year.

DPIC 2016

I have attached a flyer from DPIC, which is an external competition that the club enters each year. Take a look at the type of pictures they are looking for and see what you can come up with for the club's entry for next year. The pictures must have impact straight away as the judges only view them for 5 seconds.

This months pictures are by Jackie Lemin.

Internal Competition Rules

Internal Competition dates - are shown in the programme together with the closing dates for entry.

Prints are all eligible for all Club competitions unless otherwise stated.

Entry Form - entries for Internal Competitions should be accompanied by the appropriate entry form provided by the stated closing date.

For your first entry on joining the club - please state if it is to be entered into the beginners' section. For this purpose we define a Beginner as someone with no photography qualifications or letters, and no placing in a previous club's competition.

The number of entries - is limited to THREE pictures per section.

The same picture - may not be entered into a competition twice in the same year except that the same picture can be entered once in an "open" and once in the "set subject" competitions in any one year - provided it did not gain a place in the first competition it was entered for. If it did it cannot be entered again in any competition in the same year.

The age of pictures - those entered in internal competitions should be no more than 3 years old. They can be used in successive years provided it is still no more than 3 years.

Prints - should be mounted on appropriate card with a maximum mount size of 50cm x 40cm. The title is to be written on the back. Your name can be added if you wish.

Digital Images - Sizing - for internal and external competitions, the maximum picture size should be no more than 1400 pixels wide (horizontal) and no more than 1050 pixels high (vertical) ie neither should exceed these limits. If correctly sized, depending on the shape of your image, both dimensions will be the maximum for each side or (more often) one will be the maximum for its side and the other will be less than the maximum for its side.

Digital Images - Naming - images should be named : "The Title Of This Image" without additional file names or wording. where "The Title Of This Image" is the entrant's title for the image.

Western Counties Photographic Federation

Member of the Photographic Alliance of Great Britain
