

Thornbury Camera Club Newsletter

Print Presentation by Fotospeed

On 1st February Fotospeed will give us a demonstration using zoom, on how to use different papers for different types of prints, how to calibrate your printer, as well as many other tips. You will be able to ask those questions that may have stopped you having a go at printing in the past. Fotospeed have generously volunteered to sponsor the Print section of our competitions by giving a box of paper to each monthly winner and at the end of the year to give a box to the best Print of the year.

This month's images are by Barbara Gibbons

Programme for February

February 1st

Print presentation from Fotospeed.

February 8th

Presentation by Jane Rees on "The Galapagos"

15th February

Simon Riches will show some of his photography together with Rob England who will show some of his AV's

22nd February

Panel of Five to be demonstrated on February 22nd

Many of us had a go at creating an effect with an arrangement of five photos in the end-of-year pentptych project last June and a number of us joined the (literally) hundreds in the audience for the judging of the Kingswood Salver last month, where the judge, Leigh Woolford, gave an inspiring appreciation of the stunning effects that can be achieved by a panel of five images. You can see the winning panels for this year and previous years at [Kingswood Salver 2020 - WCPF - Western Counties Photographic Federation](http://www.wcpf.org.uk/pages/members-exhibition-2021.php)

With panels in mind we have invited Mike Martin, to visit us in February to give us advice and tips on the creation and arrangement of panels. Later in the year there will be an evening when members of the club will have the opportunity to display their own panels, either individually or as part of a team. And who knows, perhaps Thornbury will be entering their own panel for the Kingswood Salver next year.
