

NEWSLETTER

Thornbury Camera Club is there for all members - if there is something you would like to see happen at the club, please let the committee know. Better still why don't you arrange it? The committee puts a lot of time and effort into the evenings, but welcomes your constructive input.

Last season Simon Meeds mentioned people wanted summer field trips, when the club finished in June and took on the role to organise them. He has worked really hard on this and has organised many events this summer. These evenings have been a huge success and really well supported and we all thank him for all his efforts.

People have been asking for challenges:

If anyone wants to set a challenge, for example passing an object around for members to photograph creatively and show later on, or if anyone has any other challenge they would like to organise, let the committee know and we can build it into the programme.

We have often asked for feedback but little has been forthcoming. With this in mind, we are endeavouring to produce a web page that will make this response easy, on a monthly basis. The idea being that you critique briefly the speakers and judges that visit the club. Please watch this space

Finally if anyone has yet to pay their subs, can they please do so before Monday 2nd September 2019

THE EXHIBITION AT THE MUSEUM has been a great success after a lot of hard work by John Shepherd, Thank you to all our members who loaned their cameras and photographic equipment. It is well worth a visit to totally appreciate our photographic history. The exhibition runs to the end of the year.
